Please find below and/or attached an Office communication concerning this application or proceeding.

The time period for reply, if any, is set in the attached communication.

The proposed amendments made after a final rejection will not be entered because they raise new issues that require further search and consideration.

Applicants have amended independent claim 1 to disclose "...wherein said controller includes: instructions based on said power supply connections for one of receiving all of said data or receiving a portion of said data; means for redirecting all of said data to a predetermined location; and means for receiving the portion of said data and directing the remainder of said data to a predetermined address."

The amendments have changed the scope of the claims; therefore, the amendments require further search and consideration.

Applicants have also amended independent claim 14 to disclose "...a controller for monitoring a current power level of said power supply and a calculated power drain rate of said communication device, wherein said controller includes means for: receiving all of said messages; redirecting all of said messages to a predetermined location; and receiving a portion of said messages and directing the remainder of said messages data to a predetermined address based on the power level; means coupled to said power supply for determining said power drain rate of said communication device; ..."

The amendments have changed the scope of the claims; therefore, the amendments require further search and consideration.
